A WEEKLY NEWSPAPER FOR FACULTY AND STAFF AT THE UNIVERSITY OF MARYLAND AT COLLEGE PARK

OCTOBER 4, 1993
VOLUME 8, NUMBER 5

October 16 Homecoming Includes Pregame Tent Party and More

Alumni, faculty, staff and students are invited to attend the 4th Annual Homecoming Tent Party on Saturday, Oct. 16, from 11 a.m. to 1:30 p.m., on Denton Field (adjacent to Lot 1), prior to the Maryland vs. Duke football game. Highlights include:

- An all-you-can eat buffet of hot dogs, barbecued chicken, salads and vegetarian dishes, nachos, sandwiches and sodas (beer and wine available for \$1).
- A vintage car exhibit sponsored by the Chesapeake Antique Automobile Club. The university's Pride of Maryland II solar car will also be on display.
- The Maryland State Balloon, free with admission ticket (weather and time permitting).

- Entertainment by The Generics, The Treble Makers and Barry the Magician, who also performs mime and juggling acts.

- Displays by and about colleges as well as university cultural and athletic programs.

- A Maryland Book Exchange booth selling Maryland paraphernalia. Admission is \$10 (before Oct. 8) or \$12 at the door. Children under 12 are free.

In addition to the Tent Party, the traditional Homecoming Emeritus Club luncheon will take place on Friday, Oct. 15, at noon in the Greenbelt Marriott. All emeriti faculty and alumni who graduated in 1943 or earlier are invited to attend.

Later that evening, the Class of

1943 will hold its 50th reunion dinner at the Greenbelt Marriott, and the Class of 1933 will hold its 60th reunion dinner at the Center of Adult Education.

At 9:30 a.m. on Saturday, Oct. 16, the Class of '33 will hold a rededication ceremony for Testudo—a statue of the university's Terrapin mascot—in front of McKeldin Mall. Both the Classes of '33 and '43 will then join President and Mrs. Kirwan for brunch at their home.

For more information about the Tent Party or reunion gatherings and activities, call Gretchen King at (800) 336-8627 or (301) 405-4674.

CICDM Sponsors Conflict in the Post Cold War Era Seminar

The Center for International Development and Conflict Management (CICDM) will host a day-long seminar, "Identity-driven Conflict in the Post Cold War Era," on Friday, Oct. 15, from 9 a.m. to 5 p.m. in the Stamp Student Union Atrium.

The seminar will feature more than 20 leading scholars from the United States and abroad who will participate in four panel-discussion sessions on various conflict mediation issues.

In addition, Harvard University Professor Herbert Kelman, a noted authority on ethnic conflict, human rights violations and conflict media-

tion, will present a keynote luncheon address entitled "National Self-determination and Ethnic Cleansing: Protecting Human Rights in Identity Conflicts."

All four panel-discussions are open to the public as well as faculty,

staff and students. There is a \$10 charge for the luncheon, which should be paid to CICDM before Friday, Oct. 8.

For more information on the day-long seminar or specific panel presentations, call John Whaley at 314-7703.

New Emergency Phones Light Up the Night

In Lot 1, at the south gate of Byrd Stadium, stands a tall pole with a blue light on top. "Emergency" is written in white letters down its side. It is the first of a series of new emergency phones being installed by the University of Maryland Police Department.

The new "Code Blue" phones are an improvement over the original style security phones on campus. They are topped by a strobe light and activated when the call is placed.

The phones are hands-free: callers need only press a button to contact the police. A speakerphone device allows you to speak to the police. Also, the phones are set lower to the ground for wheelchair accessibility.

The phones are going through a trial period to see how well they operate and how durable they are. If the results are favorable, more will likely be purchased.

The "Code Blue" design was chosen for its high visibility and durability. An added advantage is that while the phones have the standard blue identifying light, they also illuminate the nearby area with a security light.

Officer John K. Cassady of the University Police demonstrates to students how the new "Code Blue" emergency phones operate.

In addition to the placement of more "Code Blue" phones, the police are also in the process of placing six more of the original style phones around campus.

Dick Bosstick Named New Benefits Manager

Dick Bosstick has a tough job. In addition to sorting through a myriad of state regulations on employee benefits, the new assistant director of benefits has to prepare for the impact of President Clinton's health care reforms.

"Until it gets through Congress, I think it's too early to tell what the final package will look like," says Bosstick, who arrived on campus on Sept. 7. "But it will keep us busy for a while."

Indeed.

Though he hasn't worked through all of the 279-page proposal on health reform, Bosstick is no stranger to the world of health insurance. Before coming to College Park, he was the coordinator of benefits for Fairfax County Public Schools, which has more than 19,000 employees. He's

also been a claims and benefits manager for several insurance companies in Baltimore, and has special expertise in health insurance and long-term disability coverage.

Bosstick will oversee the university's benefit programs, which include health insurance, the state retirement and pension system, the Teachers Insurance and Annuity Association/College Retirement Equities Fund (TIAA-CREF) optional/supplemental retirement program, life insurance, long-term health care and tuition remission.

One of Bosstick's goals is to increase the communication to employees about their benefit coverage. He has arranged for a financial counselor from TIAA-CREF to come on campus twice a month to talk with employees about individual financial

planning. The first visit is Oct. 7.

He also wants to address family benefits, such as day care, legal services and sick child care.

"As the national focus on health care reform suggests, benefits are playing a much bigger role in the employment picture," says Bosstick. "The more educated our employees are, the more intelligent they will be as consumers of health care."

International Journalists Study at College of Journalism

Khedidja Boudaba, a political journalist from Algiers, Algeria, was surprised by how much the students in her public affairs course knew about current international events.

"I have always been told that American students don't pay attention to other parts of the world," she said. "It was very interesting to hear what American students had to say."

Boudaba is one of 17 international journalists participating in the Hubert H. Humphrey Fellowship Program in Journalism and Communications, which is an academic development program that brings professionals from around the world to the United States for a year of study and work experience in their field.

Since its beginning in 1979, over 1,600 fellows from 121 countries have been hosted by more than 37 universities.

In the first year that journalism has been offered as an option, only College Park's and Syracuse University's journalism schools were chosen from 11 journalism schools that applied for the program.

Boudaba, who is taking classes in public affairs and feature writing, is finding her university experience rewarding.

"Wherever I go, I find students," she said. "We are not really students, but it is good to be around them."

Boudaba also plans to work for the Associated Press (AP) while she is here.

Emilija Geleva is a broadcast journalist from the Republic of Macedonia. She is taking classes in American foreign policy and comparative mass media.

"After 12 years," Geleva said, "you get experience. This was a chance to get more in the United States."

Geleva, a television news anchor in Macedonia, is sending reports home about American policy on Bosnia.

"There are no Macedonian reporters in Washington," she said.

Eugen Serbanescu from Bucharest, Romania, is filing reports on the Israel-PLO Peace Accord to his home paper, *Romania Libera*.

A foreign editor, Serbanescu is taking classes in newspaper editing and mass media history. He would like to learn how a newspaper manager works in the United States, he said.

Kadry Cisse, from Bamako, the capital of the North African nation, Mali, is the deputy director of a news agency. He would like to learn more about graphics.

"I hope that I'll be able to learn new things here," he said, "to improve the presentation of our newspaper."

Former UPI and AP reporter Karen Scrivo is the manager of the day-to-day activities of the fellows.

"All are top-notch journalists in their own country," she said. "They bring a fresh vision of looking at the American press."

Ray Hiebert, a member of the journalism faculty since 1969, is the university coordinator for the program, and will be teaching a weekly seminar on news media issues.

"These are advanced journalism professionals who are out to strengthen their management and leadership

skills and make professional contacts in the U.S.," says Reese Cleghorn, dean of the College of Journalism.

"We can offer them a rich menu of experience and resources, and they will add a special international dimension to our student and faculty activities."

The other Humphrey Fellows are: Alberto Donadio (Bogota, Columbia) Marcelo Abreu (Recife, Brazil) Michal Havran (Bratislava, Slovak Federal Republic) Hussein Al-Awadhi (Sana'a, Yemen Arab Republic) Boris Spiridonov (Sofia, Bulgaria) Iuri Sigov (Moscow, Russia) William Mendoza (La Paz, Bolivia) Omar Omari (Amman, Jordan) Sheila Natarajan-Rahman (Kuala Lumpur, Malaysia) Robinson Makayi (Lusaka, Zambia) Richard Tebere (Kampala, Uganda) Jae-Hak Lee (Seoul, South Korea) and Sinan Gokcen (Istanbul, Turkey).

Campus Programs Sponsors Office Welcome Campaign

Though out of uniform here, Pat Duffy and Mariko Wright (pictured left), surround a fellow "Star Trek" crew member, who was part of the Department of Civil Engineering's winning entry in the "Discover UMCP Office Welcome Campaign" that was held during the first week of school.

Sponsored by the Office of Campus Programs, the campaign was designed to encourage offices to decorate doors or bulletin boards with a welcome message to the more than

7,000 new freshmen, transfer and graduate students.

Civil Engineering took the "Best Overall" prize, which included a certificate and luncheon deli platter. Certificates for "Best Door" and "Best Bulletin Board" went to the Office of Student Affairs and the Division of Letters and Sciences, respectively. Fourteen offices or departments participated in this year's campaign.
